Vision

“To be a world class organization inspired by a joyful team of leader-owners.”

Mission

“We build long term partnerships by adding value through service and knowledge in the food and beverage industry.”

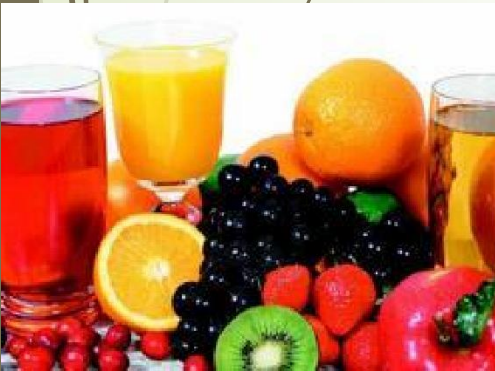

Why Choose Us ?

“Because we have an ability to reach you and we believe in long term relationship and strong commitment..”

Food Ingredients

- Ingredient and Dairy Commodities
- Food Additives and Confectionary
- Meant , Snack & Culinary Ingredients
- Fruit pulp and Concentrate

Recycle

Printing Press

- Chemicals and Equipments
- Recycle and Material Recovery
- Construction
- Perfumes
- Printing Press

Construction

Chemicals and Equipments

- Food Ingredients
- Water treatment chemicals
- Pharmaceutical Chemicals
- Paint Coating & Ink Chemicals
- Lubricants & Fuel additives
- Petrochemical Industries
- Catalysts
- Plastic Chemicals
- Construction Chemicals
- Rubber Chemicals
- Feed Additives

Food Ingredients

- Ingredient and Dairy Commodities
- Food Additives and Confectionary
- Meant , Snack & Culinary Ingredients
- Fruit pulp and Concentrate

Water treatment chemicals

- Minerals
- Ion Exchange Resins
- Reverse Osmosis
- Filtration
- Steam & Hot Water Boilers
- Open Re-circulating Cooling System (Cooling Towers)
- Closed Loop recirculating cooling systems (Chillers)
- Reverse Osmosis Plants
- Potable & Domestic Water Pipe Works
- Wastewater Treatment
- Ion Exchange Resins

Construction Chemicals

- Cellulose Ethers
- Defoamers-Powder
- Pigments
- Binders
- Cellulose Fiber
- Sealant

Pharmaceutical Chemicals

- Home & Personal Care
- Fragrance, Essential oil & Aroma Chemicals
- Pigments, Technical Colors & Inks
- Pharma Raw Material & Packaging

Paint Coating & Ink Chemicals

- Biocides- Powder/Liquid
- Benzyl Alcohol
- Basaltic fibers
- Cellulose Ethers
- Cellulose Fiber
- Coalescing agents
- Defoamers-Powder/Liquid
- Dispersion powders
- Epoxy resins

Refineries & Petrochemical Industries

- Fluid loss additives
- Viscosifiers
- Emulsifiers
- Biocides
- Surfactants
- Foamers/Defoamers

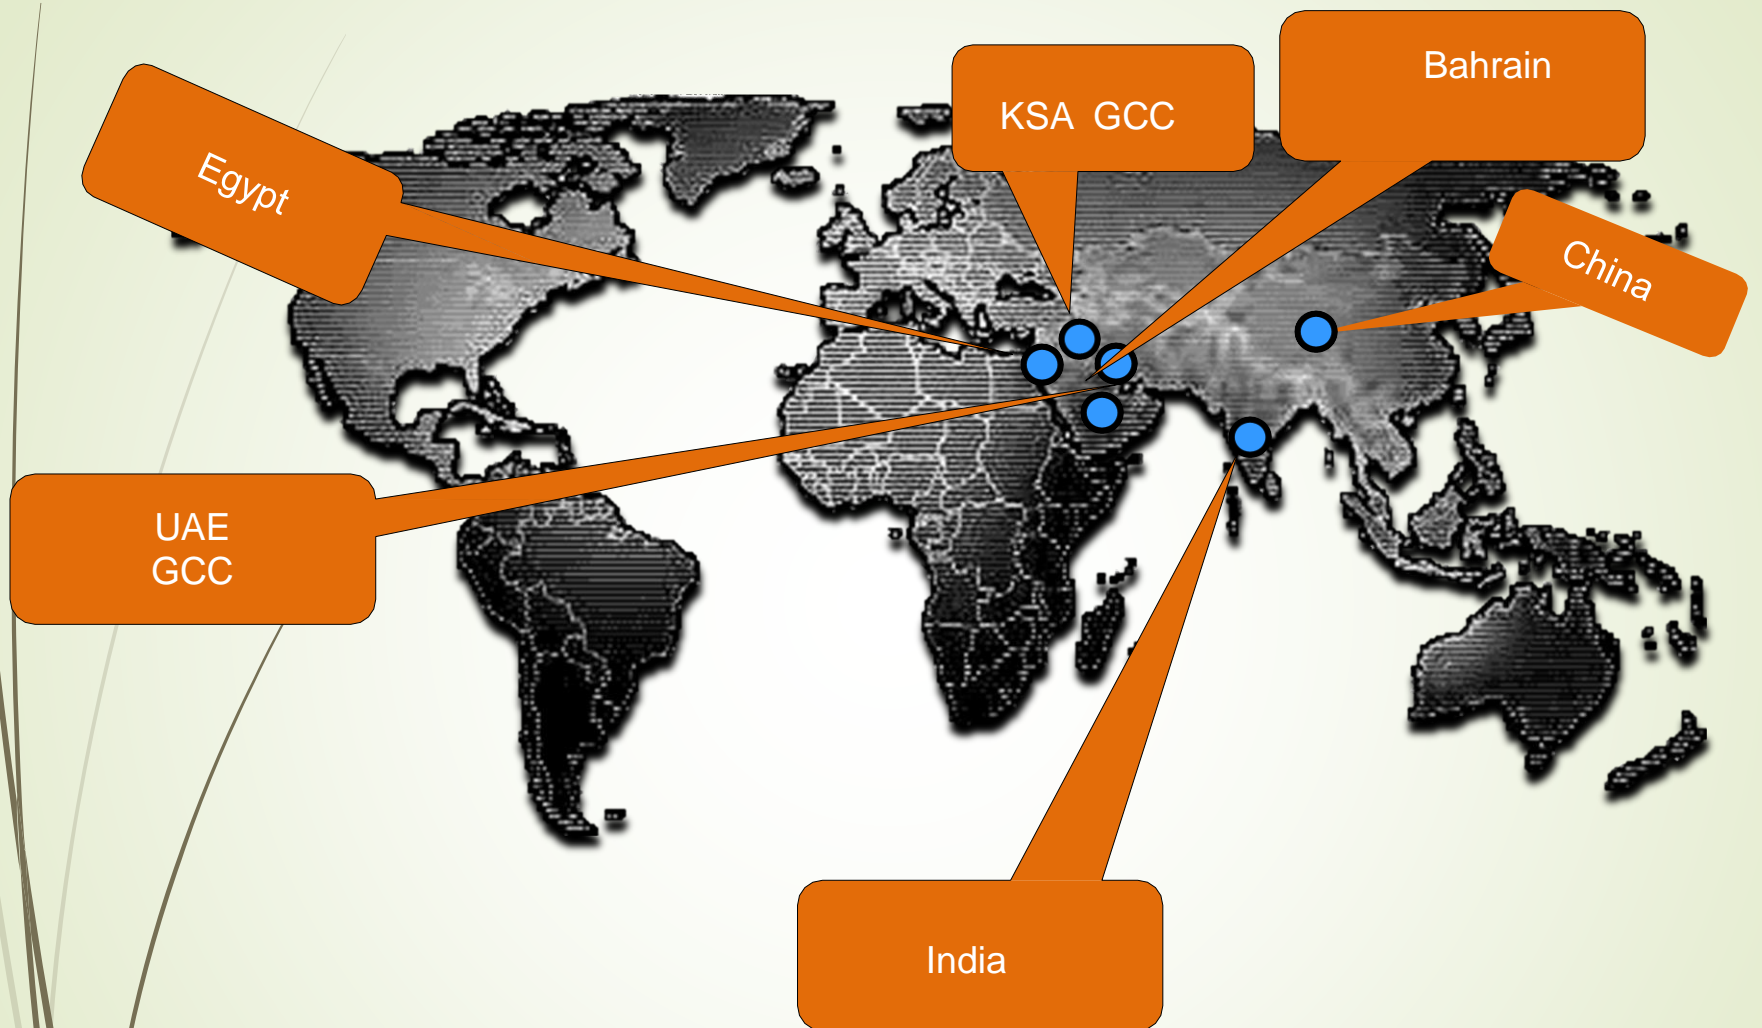

Plastic Chemicals

- Carbon Black
- Hydrocarbon Resin
- Precipitated Silica
- Silane Coupling Agent
- Specialty filler
- Titanium Dioxide
